FIND → CHECK → SHIP → DELIVER

Global trade and product sourcing, run from Jaipur and Gurgaon, India.

OUR TRADE ROUTES: 17 SOURCING HUBS INTO JAIPUR. DRAG TO SPIN.

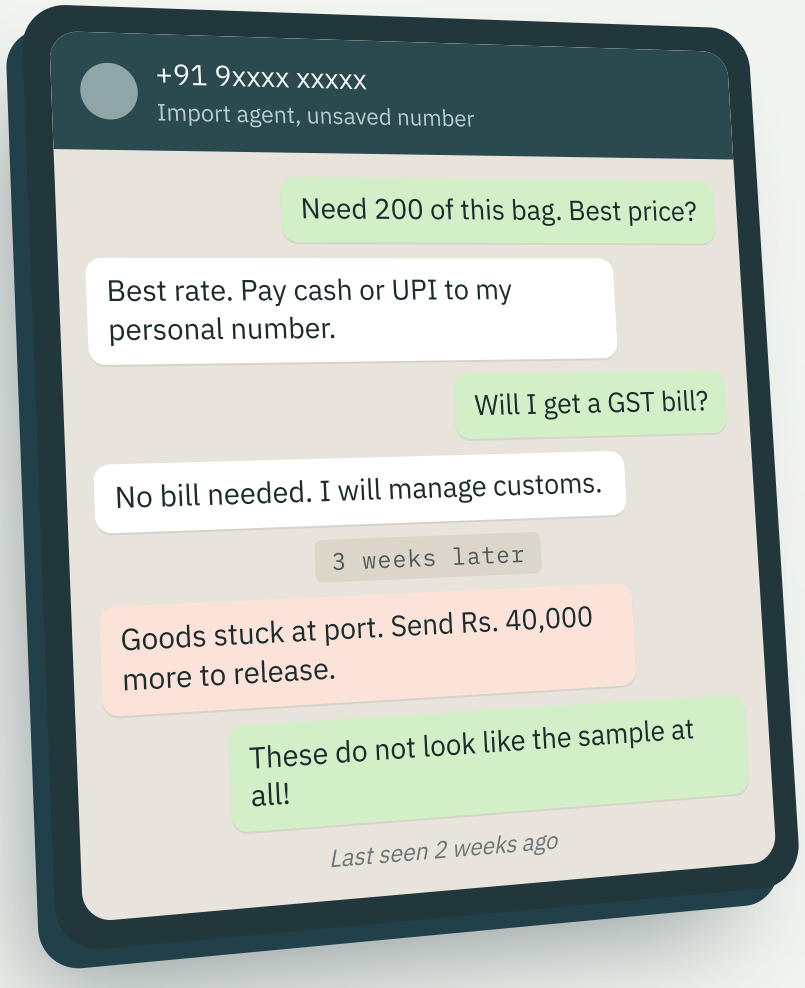

Illustration of a typical informal import

THE PROBLEM WE EXIST TO SOLVE

Too much of India's import trade still runs on WhatsApp

Unregistered agents, no paperwork and no one to hold accountable. Small and growing businesses carry all of the risk.

Hidden margins
One brand was paying about 1.8 times the factory price

No invoice, no paper trail
No GST bill, no input tax credit, no proof

No quality check
Photos on chat, then whatever arrives

Stuck at customs
Paperwork errors, holds and extra payments

No one accountable
When it goes wrong, the number goes silent

Small buyers shut out
Factories ask for 500 to 5,000 units

OUR MOTIVE

We are taking India's import trade out of WhatsApp chats and making it formal, transparent and accountable.

Any Indian business, however small, should be able to buy from the world's factories at factory prices, with full paperwork, verified suppliers and one partner who answers for the result.

Formal

Our own IEC, GST-compliant billing and 100% of the paperwork on every order.

Transparent

Factory price plus actual freight. Zero commission, no hidden margins.

Accessible

Start from 25 units and 20 kg, any mix. We pool orders to reach factory prices.

Accountable

Verified suppliers, two inspections, one contact, and a refund if we cannot deliver.

AMECK VS DOING IT YOURSELF

The same import, two very different experiences

	ON YOUR OWN	WITH AMECK
Finding a supplier	✕ Online directories with no way to check them	✓ **A verified network, with due diligence on every supplier**
What to import	✕ What is already sold locally, and already crowded	✓ **Trends spotted 12 to 24 months before the Indian mainstream**
Price	✕ Whatever the supplier quotes	✓ **Factory-direct, typically 30 to 50% below wholesale**
Quality	✕ Approve a sample and hope the bulk matches	✓ **Mid-production and pre-shipment inspection on every order**
Customs and paperwork	✕ IEC, HSN, Bill of Entry, IGST, BIS, FSSAI. One error can cost weeks.	✓ **100% handled by us, under our own IEC**
Your time	✕ 60 to 120 hours per shipment, over 3 to 5 months	✓ **A few hours in total**
Risk	✕ Fraud, quality failure and penalties fall on you	✓ **Managed through supplier checks, inspections and insurance**

Not sure which route suits you? Tell us what you want to import. We will give you an honest landed cost estimate.

AMECK VS DOING IT YOURSELF

What a Rs. 5 lakh order really costs

Rs. 1.5 to 1.75 lakh

saved on product cost alone, about 30 to 35% lower, because we buy factory-direct and combine orders

Lower duty too

Customs duty and IGST are charged on the product cost, so a lower price means lower duty.

And your time back

60 to 120 hours on your own, against a few hours with us.

Illustrative example from the Ameck guide to importing on your own. Your quote gives the exact figures for your order. Lighter bar ends show the range.
